

“Re-sterilization and re-use of medical devices is an internationally accepted industry practice favored for its potential to lower overall healthcare costs and the environmental benefits of reducing medical waste. Patient safety has always been our highest priority and we adhere to globally accepted best practices to ensure the same.

---

As a law-abiding organisation, we strictly comply with all regulatory and ethical medical guidelines and practices.

---

Our legal team is exploring available legal remedies, including approaching the Hon’ble High Court of Mumbai”.
